

## **Blockchain technology – A \$3.1 trillion investment play by Swiss gamechanger CV VC**

**Switzerland, July 20th 2021.** CV VC, the leading Swiss blockchain venture capitalist and incubator has not only extended its VC operations internationally to UAE and Africa but now offers fully compliant, bankable and transferable participation in an underlying portfolio of blockchain assets, delivering a balancing opportunity, high return potential and diversification. The CV VC investment vehicles are Actively Managed Certificates (AMC) with a Swiss ISIN code allowing qualified global investors to securely engage in blockchain, a technology megatrend whose business value-add will reach a staggering [USD 3.1 trillion](#) by 2030.

**CV VC Blockchain T4T:** The Blockchain Technology for Tomorrow allows qualified investors to participate in a diversified portfolio of early-stage blockchain technology venture capital investments alongside CV VC.

**CV Liquid Crypto Top 8:** Exposure to the eight largest liquid crypto tokens as listed on Kraken (excluding stablecoins). Rule based investment approach focused on a balanced portfolio of the most relevant projects in the space by capping the exposure of each asset at 25%.

**CV DEFI Select:** Exposure to the most promising decentralized finance projects as listed on Kraken (excluding protocols). A selection of the most dynamic projects in this highly promising segment of blockchain technology, achieving portfolio balance by capping the exposure of each asset at 25%.

**CV Bitcoin:** Exposure to Bitcoin through a bankable security with daily liquidity. Three such CV Bitcoin AMCs will be available, allowing investments in CHF, USD and AUD.

The [CV VC AMCs](#) are the result of partnership with distinguished Swiss asset managers DuLac Capital Ltd. (DuLac) and MRB Vermögensverwaltungs AG (MRB). Renowned securitization specialist GenTwo Digital together with InCore Bank the Swiss B2B banking service provider and leading global crypto exchange Kraken as well as ISP Group have made these AMCs possible.

*"With these distinct, technology focused AMCs, qualified investors gain access to the tech megatrend blockchain and a diverse range of the most promising projects through well-structured bankable investment products" says Olaf Hannemann, Co-Founder and Chief Investment Officer CV VC.*

Domino Burki, Managing Partner of DuLac added *"The tremendously increased interest from traditional investors who consider the blockchain space an attractive growth opportunity as well as a risk diversification play can now be satisfied with the emergence of these AMCs".*

**About GenTwo and GenTwo Digital**

Zurich-based innovative securitization specialist GenTwo has created a new generation of financial products. The company builds securitization platforms for its institutional clientele and enables professional investors to securitize not only bankable, but also non-bankable assets with a Swiss ISIN. The focus on so-called off-balance-sheet investment products solves the problem of declining margins and growth barriers for many financial market players. It opens up new performance potential by creating access to a theoretically unlimited world of asset classes. Financial intermediaries, including banks, use GenTwo to realize their own product and business innovations. GenTwo Digital is a joint venture which makes digital assets bankable and conventional securities (investment certificates).
